

# Drug Buster®

## The fast, effective, eco-friendly drug disposal system

### Benefits

- » Minimizes the potential for poisoning or abuse by breaking down unwanted non-hazardous medication in only 15 minutes
- » Fast, convenient process gives nurses more time to care for patients
- » Complies with “non-retrievable” DEA standards for controlled substances

### Eco-Friendly

- » Patented eco-friendly solution gets rid of unwanted non-hazardous medication before they can leach into the environment
- » Decreases the amount of non-hazardous pharmaceuticals that enter our water supplies
- » Safely deactivates medications, making them safe for disposal in landfills\*

OTC3220	Drug Buster Funnel	12/cs
OTC3220H	Drug Buster Funnel	Each

### Drug Disposal Takes Only Three Easy Steps

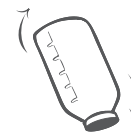

#### 1. Dispose

Place unwanted non-hazardous medication—pills, liquids and transdermal patches—into the bottle.

#### 2. Invert

Invert and swish the bottle twice.

#### 3. Discard

After two hours, discard the bottle in regular trash\*— not hazmat.
